

For Male Firefighters

HOW THE PPE WORKS ON PAPER:

Print out this page on card (150 gsm) and cut out the images, including the white tabs. Once the tabs have been folded over, the equipment can be put on. Available to wear are protective pants (1), protective jacket (2), gloves (3), helmet (4), breathing mask (5), self-contained breathing apparatus (6) with compressed air cylinder (7), chemical protective suit (8), and gas detection device (9).

Video on PPE

What provides protection during a callout?
The dress-up model on this page shows everything schematically. There is also a video at <https://youtu.be/BmFv7BuGJWU>
